Gladewater Featured Business

Texas Die Casting manufactures aluminum die cast components for a wide range of markets, including: appliance, automotive, electronics, instruments and general industry.

Texas Die Casting, opened in Gladewater, Texas in 1984 with a 28,000 square foot manufacturing facility. With hard work, outstanding quality, and dependable service we have successfully expanded our facility to exceed 75,000 square feet and have tripled our manufacturing capabilities.

In addition to outstanding growth in our die cast department, our secondary machining operations have continued to grow to meet the varied needs of our customers, including: drilling, tapping, turning, boring, milling, sanding, shot blasting, vibratory finish, and more.
